

# APPENDICES LIST

**Organization:** Association of Computer Studies Students (ACSS)

**Institution:** Cor Jesu College, Inc.

**Award Category:** Outstanding Interest Organization Award (Academic)

## Appendix A: Academic Leadership & Research Activities

| Appendix No. | Activity Title & Description                                                                                                                                                                                                                                        | Date of Event      |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| <b>A-1</b>   | <b>ACSS Summer Bootcamp for Upcoming First-Year Students</b><br>A three-day initiative held at Computer Laboratories 4 and 5 to prepare incoming BSIT and BSCS freshmen for technical and academic demands through hands-on website development using Google Sites. | July 23–25, 2025   |
| <b>A-2</b>   | <b>ACSS and CCIS CLGU Team Building Activity</b><br>Held at Epitome Mountain Resort under the theme "Step Into The Wild: Rediscover Strength, Reignite Connection, Rebuild Together" to strengthen core leadership values among student leaders.                    | July 20–21, 2025   |
| <b>A-3</b>   | <b>ACSS General Assembly and Bonding Day</b><br>Conducted at the Almendras Gymnasium to introduce faculty, present financial reports, elect representatives, and host "Link & Grow: ACSS Bonding Day 2025" tech quizzes and team building.                          | August 20, 2025    |
| <b>A-4</b>   | <b>CJC x Base Townhall Seminar</b><br>An educational seminar introducing 200 third-year computing students to Web3, blockchain technology, and decentralized systems in collaboration with Base Philippines, Davao DeFi Community, and OpenxAi.                     | September 19, 2025 |
| <b>A-5</b>   | <b>Programmers Day 2025 Celebration</b><br>A celebration showcasing student innovation, featuring a Roblox virtual campus showcase, the launch of the official CCIS website, and academic/technological competitions.                                               | September 25, 2025 |
| <b>A-6</b>   | <b>1st Session: Peer-to-Peer Tutorial</b><br>Academic support initiative conducted at Computer                                                                                                                                                                      | September 12, 2025 |

| Appendix No. | Activity Title & Description                                                                                                                                                                                                                                            | Date of Event       |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
|              | Laboratories 2 and 4 reinforcing foundational Java programming concepts, number systems, and flowcharts for first-year students.                                                                                                                                        |                     |
| <b>A-7</b>   | <b>2nd Session: Peer-to-Peer Tutorial</b><br>Follow-up Java programming tutorial on variables and data types in Computer Laboratories 4 and 5, demonstrating student adaptability despite a campus power outage.                                                        | September 26, 2025  |
| <b>A-8</b>   | <b>3rd Session: Peer-to-Peer Tutorial</b><br>Online Java programming tutorial conducted via Discord covering Control Structures, loops, and JOptionPane after a face-to-face session postponement due to an earthquake.                                                 | October 11, 2025    |
| <b>A-9</b>   | <b>Graphics Workshop: Frame It</b><br>A specialized digital design skills development track focused on layout hierarchy, typography, and color selection using Adobe Photoshop for student leaders.                                                                     | November 22, 2025   |
| <b>A-10</b>  | <b>OpenX AI and Mini App Factory Workshop &amp; Competition</b><br>A full-day hackathon-style event exploring Web3, AI, and decentralized no-code development, culminating in onchain application deployments and an international livestream with the OpenxAI founder. | December 1, 2025    |
| <b>A-11</b>  | <b>Innovation Week (IT) Fest '26</b><br>A regional three-day technology festival themed "Digital Horizons: Connecting Minds, Expanding Boundaries" featuring campus workshops, career talks, and a public project exhibition at Gaisano Grand Mall of Digos.            | January 28–30, 2026 |
| <b>A-12</b>  | <b>Figma Fusion Workshop: Batch 1</b><br>A resilient hands-on educational initiative at Computer Laboratory 4 introducing UI/UX design principles, wireframing, and interactive prototyping tools to second-year BSIT students.                                         | March 22, 2026      |
| <b>A-13</b>  | <b>Figma Fusion Workshop: Batch 2</b><br>A streamlined replication workshop targeting the remaining second-year BSIT students to unlock the Figma Education Plan and build interactive digital portfolios.                                                              | April 11, 2026      |
| <b>A-14</b>  | <b>4th Session: Peer-to-Peer Tutorial</b><br>An agile, demand-driven academic intervention conducted at Computer Laboratory 3 focusing on Java Arrays, using a                                                                                                          | February 27, 2026   |

| Appendix No. | Activity Title & Description                                   | Date of Event |
|--------------|----------------------------------------------------------------|---------------|
|              | web-based learning platform featuring live memory simulations. |               |

## Appendix B: Community Extension Activities

| Appendix No. | Activity Title & Description                                                                                                                                                                                                                                    | Date of Event      |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| <b>B-1</b>   | <b>Root. Reset. Restore: Coastal Clean-Up and Mangrove Planting Drive</b><br>An environmental stewardship initiative in Punta Biao Cogon, Digos City, framing ecological restoration as a form of physical "system maintenance" aligned with UN SDGs 13 and 17. | May 8, 2026        |
| <b>B-2</b>   | <b>Tabulation Committee Service for Mutya ng Sta. Cruz 2025</b><br>High-stakes civic deployment configuring a localized network and computer-based scoring system to serve as official digital tabulators for a municipal pageant.                              | October 3, 2025    |
| <b>B-3</b>   | <b>CJC Grand Community Day: IT Clinic and Symposium</b><br>Digital literacy outreach programs at Brgy. Dulangan, featuring parallel seminar tracks on Cyberbullying prevention and ethical AI integration in lesson planning for local teachers and parents.    | September 26, 2025 |
| <b>B-4</b>   | <b>DASURECO Annual General Membership Assembly (AGMA) Deployment</b><br>High-volume public utility technical volunteerism where 25 student officers served as outsourced data operators managing registration and database verification.                        | July 27, 2025      |

## Appendix C: Spiritual, Religious, or Formation Programs

| Appendix No. | Activity Title & Description                                                                                           | Date of Event    |
|--------------|------------------------------------------------------------------------------------------------------------------------|------------------|
| <b>C-1</b>   | <b>Small Faith Sharing for ACSS &amp; CCIS LGU Officers</b><br>An intimate spiritual reflection event focusing on Luke | October 24, 2025 |

| Appendix No. | Activity Title & Description                                                                                                                                                                                                                | Date of Event     |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
|              | 10:38-42 (Martha and Mary) to foster healthy balances between active organizational service and prayerful listening.                                                                                                                        |                   |
| <b>C-2</b>   | <b>1st ACSS General Small Faith Sharing Session</b><br>An afternoon session bringing computing student leaders together for communal prayer, reflection, and dialog aligned with the core values of Cor Jesu College.                       | March 13, 2026    |
| <b>C-3</b>   | <b>Prayer Service for the Dead (Late Mrs. Mirasol Cabag)</b><br>A solemn compassionate outreach service offered for the late mother of an ACSS member, providing emotional accompaniment and an organization-pooled financial contribution. | February 16, 2026 |
| <b>C-4</b>   | <b>Prayer Service for the Dead (Late Justine Dave Perales)</b><br>Spiritual and emotional accompaniment service partnered with SHFM conducted at the bereaved family's residence, including liturgical prayers and financial assistance.    | May 7, 2026       |

## Appendix D: Certificates & Recognitions

| Appendix No. | Document / Certificate Title                                                                                                                                                                                                                                                                                              | Date Issued      |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| <b>D-1</b>   | <b>Certificate of Recognition</b><br>Presented to the Association of Computer Studies Students in recognition of valuable support and active involvement in the OpenXAI Mini App Workshop & Competition at the Cor Jesu College Auditorium. Issued by John Forfar (OpenxAI) and Ruben Lacumba Jr. (Davao DeFi Community). | December 1, 2025 |
